

# *Mini Terrain*

*from*

Agrimac (UK) Ltd

Meet the all-new Mini Terrain compact diesel forklift. This is a versatile machine with a lifting capacity of 1000kg and a lifting height of 2m or 3m. This forklift is more than capable of handling the smallest of jobs.

With a small net weight of 1860kg it can be easily transported on a trailer and be under the 3500kg towing capacity.

This low maintenance forklift with the design stripped back to basics and a powerful 4 cylinder Diesel 36.8Kw Engine is the ideal machine for many light industries.

The drive is a single speed hydraulic automatic gearbox, electrically operated for driver ease. It delivers a smooth drive to the front axle where the large front wheel brakes can cope with ease, and the mechanical hand brake offers a simple effective parking brake.

We can offer a MT10-30 with a 3 meter Full Free Lift Duplex Mast or a MT10-20 with a 2 meter Full Free Lift Duplex Mast with a 3<sup>rd</sup> valve and side shift as standard. We also fit as standard full power steering and spot lights front and rear.

With its small size and turning circle this machine works in tight and small areas economically.

## Mini Terrain for Mini Spaces

MINI TERRAIN					
General	1	Model	MT10-30		
	2	Rated capacity	kg	1000	
	3	Power type	Diesel		
	4	Transmission	Hydraulic
